

CaPOC – 2005!

DAY 1 - TWIST-O-RAMA

August 20, 2005 – 10:00am to ?????

Starting Point: ARCO Olympic Training Center
2800 Olympic Parkway
Chula Vista, CA

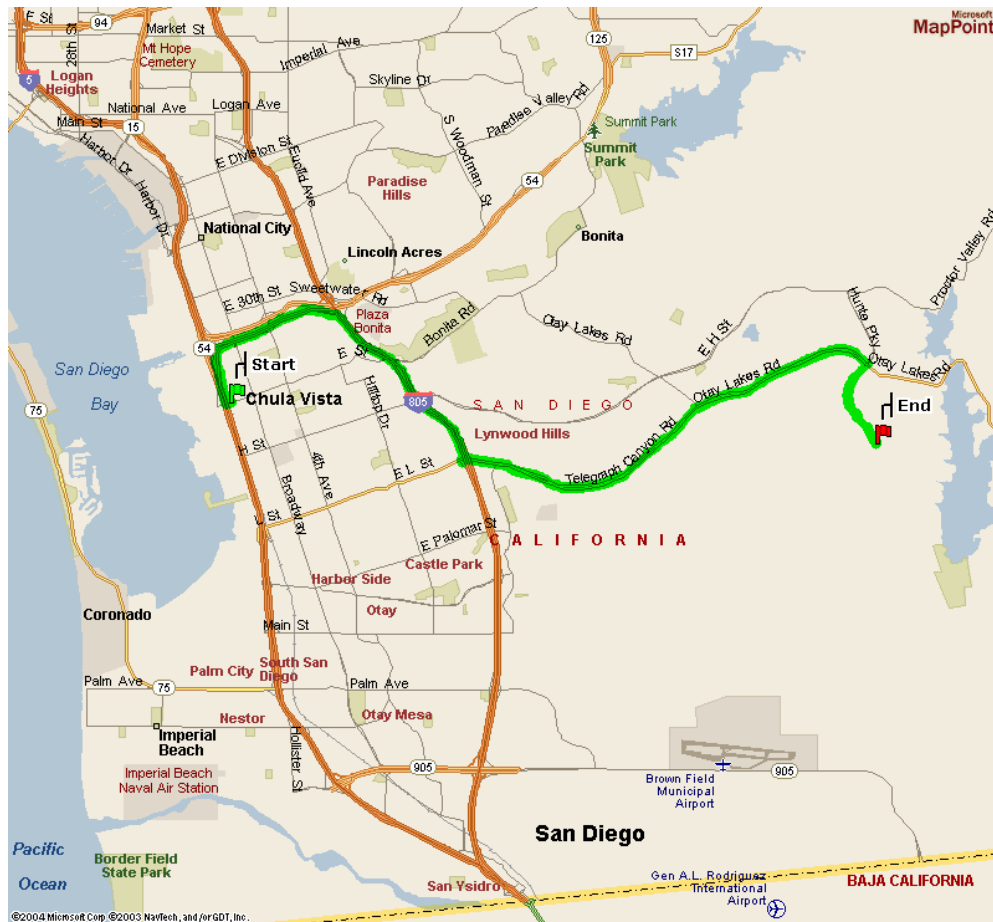

Ending Point: Motel 6
745 E. Street
Chula Vista, CA 91911

Thank you for joining us on the drive portion of the TOR! It is our hope that you will enjoy your ride and have a fun time the remainder of the weekend. Please read the directions below carefully. If you have any questions, please ask.

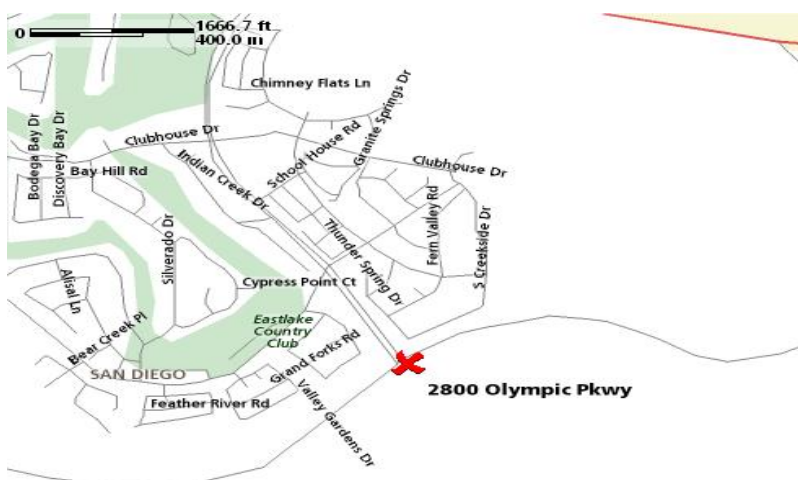

A few notes first:

- Make sure your car is in good repair. That means all tires are properly inflated and in good condition; that your car has no leaks or other mechanical problems.
- Have plenty of fuel. There will be few gas stops on this cruise, so please make sure that your tank is full before leaving. It is a good idea to have one or two fuel cans in your vehicle in the event you need one.
- Have a small set of tools available in the event you must stop and make a roadside repair.
- Please be courteous on the road. This cruise is meant to be just that, a cruise. There are no 'points' or 'awards' on this cruise. At NO time should this be considered a race, but it IS NOT A RACE. ***ANYONE DRIVING RECKLESSLY OR DANGEROUSLY WILL BE ASKED TO LEAVE THE GROUP.***
- At NO time should anyone start driving carelessly. This can jeopardize the ENTIRE GROUP, not to mention that it is NOT SAFE and it can result in serious harm or injury to EVERYONE ON THE CRUISE.
- Everyone is encouraged to have an FRS radio WITH sub-channels. They are not that expensive and can be purchased at your local electronics store for less than \$50 for a pair.
- No excessive noise. This means please do not blast your radios so that all in the county can hear it. We will be using FRS radios to communicate with one another. This is done so that we may keep track of ALL of the drivers and in case any emergency situations develop.
- Please keep the FRS channel as clear as possible. This relates to the above section. Excessive chatter can lead to an important message not being delivered.
- Do not use your cell phones while driving. Chances are, most of us won't have much of a signal anyway, since we're going to be traveling into a mountain area. We need all drivers to concentrate on the ROAD, because some of these roads have very sharp turns and you must have your wits about you at all times.
- If at any time, anyone needs to make a stop, please call out on the FRS radio or phone the group leader. We will try to accommodate your needs as much as possible.
- HAVE FUN! The main point of this drive is to have fun and we want everyone to enjoy themselves, regardless of the pace!
